

# Gender Pay Gap Reporting

We are an employer required by law to carry out Gender Pay Gap Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

This involves carrying out six calculations that show the difference between the average earnings of men and women in our organisation; it will not involve publishing individual employees data.

We are required to publish the results on our own website and a government website. We will do this within one calendar year of April 5<sup>th</sup> 2022.

We can use these results to assess:

- The levels of gender equality in our workplace
- The balance of male and female employees at different levels
- How effectively talent is being maximized and rewarded.

The challenge in our organisation and across Great Britain is to eliminate any gender pay gap.

Gender Pay Reporting requires our organisation to make calculations based on employee gender. We will establish this by using our existing HR and payroll records. All employees can confirm and update their records in regards to gender pay reporting if they chose to by contacting the HR department at our Barnsley Office on (+44) 01226 707500.

Leggett & Platt is committed to equal opportunity and bases workplace decisions solely on the skills and abilities of our applicants and employees. These principles of equal opportunity should be applied in all aspect of employment including: recruiting, hiring, promotion, training, compensation, termination, layoff, transfer, disciplinary actions, and other terms, conditions or privileges of employment.
