

Caliber Edge® forms a steel perimeter around select pocket systems, creating a firmer, more durable edge, and providing consistent support across the sleep surface.

- **Comfort and Support** – Offers longer and more resilient edge-to-edge comfort life with improved perimeter firmness and reduced feeling of roll-off.
- **Sustainability** – Reduces mattress build time and eliminates the need for foam borders, cutting costs, saving time, and increasing recyclability.
- **Stress-Relieved Wire** – Holds its shape and provides greater durability and performance consistency.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.
- **Packable and Shippable** – Can be compressed, folded, and rolled.

Supportive Caliber Edge®
dynamic spring perimeter
