

Combi-Zone® is a revolutionary pocket innerspring zoning solution. It strategically positions coils in predetermined areas, providing a difference in resolution and firmness for exceptional comfort for all body types.

- **Multi-Level Comfort** – Changes in coil diameter, geometry, and type create a system with different levels of comfort resolution and support dimension.
- **Individualised Firmness** – Designed to match key body support zones and deliver measured comfort and support.
- **Customised Solutions** – Develop a unique and compelling comfort story with multiple spring-density customisation.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.
- **Packable and Shippable** – Can be compressed, folded, and rolled.

Combi-Zone® zoning solution
