

Softech® Micro premium performance layers provide micro-coil innerspring comfort and reassuring, ultra-high-resolution support. Deliver cooler sleep, reduced sagging, and an extremely supportive feel by boosting coil count and refining comfort resiliency with a low-profile pocket spring layer.

- **Customisation** – Multiple configuration and application options including mattress toppers, layers, and filling replacement.
- **Variety** – Produced in a range of ultra-high-unit resolutions, as well as 25 mm or 30 mm heights.
- **Performance** – Designed to outperform and last longer than more traditional filling materials.
- **Stress-Relieved Wire** – Holds its shape and creates a more durable and consistent innerspring.
- **Packable and Shippable** – Can be compressed, folded, and rolled.

25 mm Softech® Micro
