

Exclusive Solace® pocketed innersprings feature a unique progressive design that delivers a highly responsive combination of softness and comfort, with firmness when and where needed for lasting support.

- **Solace® Performance** – Designed to resist coil-nesting, retain uniformity, and move independently as they provide targeted comfort and support.
- **Responsive Support** – Helps reduce partner disturbance and reacts to different body weights, shapes, and sleep patterns for an individualized feel.
- **Progressive Design** – Signature variable-rate geometry gives these springs their distinct shape and support characteristics.
- **Stress-Relieved Wire** – Holds its shape and provides greater durability and performance consistency.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.

Solace® variable-rate geometry pocket springs
