

Joey® premium pocketed innersprings use innovative coil-within-a-coil technology. This revolutionary multi-coil concept intelligently responds to individual body weights, shapes, and sleep patterns.

- **Innovative Design** – Strategically targeted springs contain a secondary interior coil which, once engaged, increases firmness as more weight is applied.
- **Responsive Comfort** – Identifies individual body movement and reacts with the right level of support or pressure relief, providing essential body alignment and support characteristics.
- **Sublime Performance** – Isolates motion transfer to reduce partner disturbance and actively counter roll-together.
- **Stress-Relieved Wire** – Holds its shape and provides greater durability and performance consistency.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.

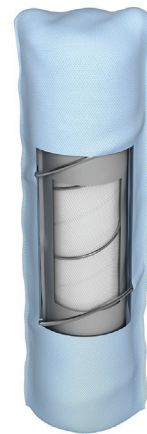

Joey® coil-within-a-coil pocket springs

The latest iteration of the revolutionary Joey® innerspring system, Jo3y® places the original coil-within-a-coil configuration within another coil for a superior response to individual body weights, shapes, and sleep patterns.

- **Evolutionary Design** – Coil, within-a-coil, within-a-coil design gives Jo3y® its enhanced, progressive performance.
- **Unique Performance** – Interior coils respond with the perfect combination of support and pressure relief as weight is applied, generating its unique three-phase compression.
- **Superior Comfort** – Isolates motion transfer to reduce partner disturbance, eliminates roll-together, and delivers supreme levels of sleeping comfort.
- **Stress-Relieved Wire** – Holds its shape and provides greater durability and performance consistency.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.

Jo3y® triple-coil, progressive pocket springs
